About Blue Moon Metals

Blue Moon Metals is advancing its Blue Moon polymetallic deposit which contains zinc, gold, silver and copper. The property is well located with existing local infrastructure including paved highways three miles from site; a hydroelectric power generation facility a few miles from the site, a three-hour drive to the Oakland port and a four-hour drive to the service centre of Reno. Zinc is currently on the USGS list of metals critical to the US economy and national security. The Company also holds the Yava polymetallic project in Nunavut that is in the same volcanic lithologies and south of Glencore’s Hackett River deposit. More information is available on the company’s website (www.bluemoonmetals.com).
